SUMMARY

- Seeking a challenging role where I can apply my technical skills, problem-solving, abilities and passic innovation to drive projects forward and achieve mutual success.
- To gain new skills and knowledge from the organisation

EDUCATION

SESHADRI RAO GUDLAVALLERU ENGINEERING COLLEGE

Gudlavalleru, India

Bachelor of Engineering

Expected May 2026

Computer Science Engineering

- Cumulative GPA:9.07(Till date)

AANM AND VVRSR POLYTECHNIC COLLEGE

Gudlavalleru, India

Diploma in Computer Science Engineering

April 2023

- Completed with an Excellent A +grade

PROJECTS

Personal Budget Tracker

- Developed a web-based personal budget tracker to help users monitor their expenses efficiently. Designed the frontend using HTML for a simple and user-friendly interface, while implementing the backend with Node.js for robust data processing and storage.

Phishing Url Detection

- Developed a phishing website detection model using Random forest and gradient boosting Python, achieving 90 percent accuracy.Preprocessed data using feature scaling and encoding to optimize model performance.Evaluated the model's effectiveness through metrics like precision, recall, and F1-score

CERTIFICATIONS

- Artificial Intelligence and Machine Learning virtual internship-AICTE
- Cloud virtual internship of AWS academy-AICTE
- Web design and development-Skill India

SKILLS

- **Programming Skills:** C, Python,HTML,CSS,Full Stack
- **Data Base:** SQL
- **Framework:**Django(basic)
- **Operating System:**windows
- **Platforms:**Visual Studio Code

STRENGTHS

- Adaptability
- Team Collaboration

Technologies

Languages: C, Java, python

Technologies: Practice coding on online coding websites,browsing new technologies and articles.
